Associate of Science Computer Science

COMMUNITY COLLEGE Students intending to transfer to a 4-year Computer Science Bachelor's Degree program at a public university in Washington state are generally advised to pursue an Associate of Arts (AA) Degree with an emphasis in Computer Science. Students who are transferring to out-of-state or private colleges may be better served with the Associate of Science (AS) degree. Talk to a faculty advisor (email: cis@highline.edu) about which degree path is best for you!

| Course | CREDITS Required | Credits Completed | GPA |
| :---: | :---: | :---: | :---: |
| Communications |  |  |  |
| ENGL\& 101 | 5 | - | - |
| Quantitative Skills | (15 total) |  |  |

| CSCl | 5 |  |  |
| SSCI | 5 |  |  |
| CSCI/ Math | 5 |  |  |
| CSCI / Math | 5 |  |  |
| TOTAL CREDITS REQUIRED | 90 |  |  |

## Associate of Science - Computer Science Guidelines

Important: Work closely with your faculty advisor and carefully read the degree guidelines.

- The Associate of Science - Computer Science is a 90 credit specialized transfer degree designed to prepare students for admission into a Computer Science Major at the university. Students graduating with the AS-Computer Science will have additional General Education classes to complete when they transfer to the university.
- An application for graduation should be submitted to the Registration Office when you have completed 45 credits of college level coursework. (Classes Numbered 100 or 200 level)
- A 2.00 cumulative GPA is required to graduate with an Associate of Science-Computer Science but University Computer Science programs require a significantly higher GPA for admission.
- A minimum grade of a $D(1.0)$ is required for each class that applies to the AS degree.
- Besides the AS in Computer Science degree, admission into a Computer Science program may require a proctored essay, personal or work recommendations or additional classes. Check with the Computer Science Department at the universities you are considering for more information.
- It is important to plan your course work carefully because some science/computer science classes are not offered every quarter.
- It is strongly recommended that you complete sequenced classes like Physics 201, 202, and 203 at one school.
Classes that meet the degree requirements (Subject to change - please see advisor):
