

Canna Cloud Technologies

The World's Source for Tracking, Inventory, and Compliance Software

CannaCloud Technologies Software has 3 intern positions available for this quarter. In the past we have been partnering with Centralia College and have provided very successful internships to 9 of their student with a 4.9 out of 5 star rating from the interns for our program. Interns are introduced to weekly Scrum meetings and the use of FTS for work integration. Our platform is C# on a .net platform. We also utilize js node and python. The following descriptions will define the positions. We are opening offices in Burien in late March, and until then you will be working remotely. If you are interested in the internship, please respond to the developer at the bottom of the position. Interns will be paired with a Senior Developer, both of which have over 20+ years in the industry. Please feel free to contact the developer directly by email.

Title: Junior Web Developer

Need: 2 positions

Responsibilities:

Building and improving a e-commerce platform with main focus on the front end and look and feel.

Qualifications and Skills:

- Proven experience in web development and great familiarity with front end technologies, such as JavaScript, HTML, CSS
- Demonstrated knowledge of common web libraries, such as jQuery, Bootstrap, and similar
- Experience with .Net and visual studio is a huge plus
- Experience with user experience and graphic editing tools also desired
- Strong analytical thinking and problem solving skills required
- Willingness to learn new technologies and stay up-to-date with the evolving tech stacks
