BUILD YOUR FUTURE IN
Network Security Engineer

(206) 878-3710
2400 S. 240th Street • Des Moines, WA 98198

The college provides equal opportunity in education and employment and does not discriminate on the basis of race, color, national origin, age, disability, sex, sexual orientation, marital status, creed, religion, or status as a veteran of war. Prohibited sex discrimination includes sexual harassment (unwelcome sexual conduct of various types).
ABOUT NETWORK SECURITY ENGINEER

Network Security Engineer program graduates perform a wide variety of technical duties. In roles such as network administrator and network specialist, they maintain network hardware and software.

Network specialists analyze, design, install, test, and support systems such as local area networks (LANs), and wide area networks (WANs), Internet, intranet, and other data communications systems. They provide day-to-day on-site administrative support for network users in a variety of work environments. Network administrators also may plan, coordinate and implement network security measures.

DEGREES AND CERTIFICATES

Highline offers the following:

- AAS in Network Security Engineer
- Certificate in Network Admin and Security
- Certificate in UNIX/ LINUX System Administration
- Certificate in Operating Systems Fundamentals
- Certificate in Local Area Network (LAN)

“I am a Security Analyst for an Arlington, Virginia based firm. I travel the country doing network security testing at VA hospitals. I work with professionals with 10 to 15 years of experience, and my HC degree got me here.”

- ERIC HEYLIGER, NETWORK SPECIALIST/ SECURITY ANALYST

*The AAS Degree in Network Security Engineer is not a transfer degree, with exception of CWU (Des Moines campus) BAS in Information Technology and Administrative Management and Highline College’s BAS in Cybersecurity and Forensics.
