The college provides equal opportunity in education and employment and does not discriminate on the basis of race, color, national origin, age, disability, sex, sexual orientation, marital status, creed, religion, or status as a veteran of war. Prohibited sex discrimination includes sexual harassment (unwelcome sexual conduct of various types).
ABOUT INFORMATION SYSTEMS PROJECT COORDINATOR

Highline Community College’s Information Systems Project Coordinator program prepares the student for an entry level position as a supervisory/project manager in the IT field. Project Coordinators provide day-to-day administration of projects and ensure that services or products are delivered in a timely, cost effective, and qualitative manner.

Students should currently be working in or have supervisory/managerial skills gained in a commercial environment. The program will equip students with the tools and skills required in becoming a proficient Project Coordinator of IT projects.

LEARN SKILLS IN

There are six specialization tracks within the Information Systems Project Coordinator Associate of Applied Science degree:

• Web Development
• Software Development
• Networking
• Computer Forensics
• E-commerce
• Database Design/Development
